Whether you prefer casual sophistication in subtle hues or a dramatic design in bold colors, it's here that the excitement of customizing your home exterior begins to take shape.

CREATING CUSTOM STYLE

The marks of a mill saw for a rustic feel that plays to the modern-traditional style of the home. Shapes and sizes that add something a little unexpected. Techniques and knowledge passed down from generation to generation. And most of all, a mix of quality and culture resulting in a perfectly unique exterior siding.

EASY-CARE ELEGANCE THAT'S BUILT TO LAST

Discover the natural cedar beauty of the Architectural Classics Collection. A beauty that does not succumb to the elements. Architectural Shakes, Staggered Shakes, Perfection Shingles, and Scallops are manufactured with man-made material that won't crack, fade, buckle or rot. Their durable finish requires less maintenance than other exterior claddings, which means you'll spend less time on upkeep and more time enjoying life. Simply rinse occasionally with water from a garden hose to remove most airborne dust and dirt and restore the siding's fresh-looking appearance.

AGELESS CRAFTSMANSHIP MEETS MODERN TECHNOLOGY

Nearly 100 authentic molds taken from actual cedar shakes and shingles are a true throwback to classic artisan style. The four profiles included in the Architectural Classics Collection represent the most significant architectural patterns from the 20th century.

Thanks to state-of-the-art technology, Alside's Architectural Classics Collection features a full-length nail hem for easy installation. It is also friendlier to the environment than many other siding products, making it a great choice for today and generations to come.

VALUE-ADDED ENERGY SAVINGS

Architectural Classics, when used with Fullback® Insulation, can help save energy, reduce utility costs and create a more comfortable home environment. The contoured insulation is custom cut to fit behind the siding, providing a powerful thermal barrier against energy loss and enhancing the siding's durability and appearance. Adding insulation to the exterior of the home also helps lessen outside noise for a more peaceful interior.

Fullback Siding Insulation can be installed with all 7" exposure panels from Architectural Classics, including Shake, Staggered Shake, and Perfection Shingle profiles.

A TRUE REPRODUCTION *of* CEDAR'S NATURAL GRAIN
Give Your Home a Warm and Welcoming Ambiance.

ARCHITECTURAL
SHAKES™

ARCHITECTURAL SHAKES

You'll enjoy shakes that bear the rich grain of hand-split cedar, and on all claddings, the texture is carried through on the bottom edge of each shake – an honest rough-sawn look. This level of authenticity is only possible with a proprietary process.

What you won't see are seams. Even when you know just where to look, they're difficult to find. All this makes Alside's Architectural Classics one of the most realistic sidings available.

Our proprietary process recreates the appearance of natural weathering to achieve a beautifully organic appearance.

HANDCRAFTED AUTHENTICITY

Shakes have always been esteemed by those who believe a home should be one with its natural setting. Split along the grain, cedar Shakes are deeply textured in a way that sets off an interplay of light and shadow. The sun moves across the sky, and the light changes the house as it does the landscape. Architectural Shakes are the ideal way to capture this beauty.

NATURALLY AGED

Architectural Classics' Weathered Collection™ Colors capture the essence of time, giving a home the authentic appearance of cedar that has naturally weathered over the years. Our proprietary process achieves this incredible look by presenting a lighter shade of a color in the grain and a darker one on the higher points. Premium Colors are available in both Shake and Staggered Shake.

DETAILS THAT MAKE A DIFFERENCE

Architectural Shakes and Staggered Shakes can be used as either an accent or as conventional siding on your entire home. With easy elegance, the artistic detail and superb craftsmanship ensure an upscale appearance that masterfully recreates the natural appeal of handcrafted wood.

CORNER POSTS

Use Alside standard or Trimworks® corner posts or choose these special shake corners designed to match each profile for a refined finished look.

THE BEAUTY OF CUSTOM CRAFTSMANSHIP

Classic Style Without the Upkeep.

ARCHITECTURAL
STAGGERED
SHAKES™

Architectural Staggered Shakes masterfully combine handcrafted beauty with modern practicality.

ARCHITECTURAL STAGGERED SHAKES

Architectural Staggered Shakes echo the rustic charm of another time. Their uneven pattern and rough-sawn look of their edges were handcrafted by artisan mold makers to replicate the natural, genuine beauty of a custom cedar installation.

With intricate detail, the "staggered" bottom edges replicate the craftsmanship of early settlers in the Eastern and Northern U.S. seaboards who split cedar into planks to protect their homes from the weather. Today's Architectural Staggered Shakes convey rugged, naturally weathered appeal in a virtually maintenance-free cladding.

ARCHITECTURAL
PERFECTION
SHINGLES™

Our modern take on this classic never has to be painted or stained to maintain resilience to the weather. Plus, unlike organic wood, Architectural Perfection Shingles will never warp or split.

ARCHITECTURAL PERFECTION SHINGLE

Originally referred to as the “seaside style”, cedar shingled homes first lined the cobblestone streets of Boston in the 1800’s. Like the original, only Architectural Perfection Shingles have a naturally textured surface and edge.

The Perfection Shingle delivers the perfect balance of the deep texture of Shakes and the clean lines of Shingles. This profile offers a traditional look with a hint of ruggedness. Offered in a 7" exposure, the crisp vertical grains are highlighted, complementing random shingle widths.

PAST MEETS PRESENT

Mix and Match for Distinction and Style.

ARCHITECTURAL
SCALLOPS™

For drama or distinction, nothing matches the versatility or creative possibilities of Architectural Scallops.

ARCHITECTURAL SCALLOPS

Perhaps more than any other specialty siding, this panel creates an immediate transformative effect on the exterior of your home. The pristine rows of rounded curves impart a generous measure of character and charm, while the substantial shadow line adds a bold layer of visual dimension.

Architectural Scallops are ideally suited for gables, dormers and other accent areas. Choose from a broad palette of colors, many of which simply are not offered anywhere else - and challenge your imagination with the possibilities!
